

# Pipe Fabrication Institute (PFI)

Design, manufacture and safely install metal piping.

The Pipe Fabrication Institute (PFI) standards guide the design, manufacture, fabrication and installation of metal piping. PFI standards dictate quality control, examination and testing within engineering, design, welding, fabrication, cleaning, painting and shipping. PFI standards dictate quality control, examination and testing and assist you to:

- Assure efficient pipelines
- Minimize risk
- Streamline installation

The Pipe Fabrication Institute (PFI) was formed in 1913. It is one of the oldest and most respected industry associations in the United States.

The PFI exists solely for the purpose of ensuring a level of quality in the pipe fabrication industry that is without compromise.
