

## BH-CR1220

### Lithium CR1220 Horizontal Battery Holder 2 pin

- **DETAILS**

CR1220 coin cell battery holders are securely held in place, yet, they can quickly and easily be removed when they run down. Batteries are suited for high density PCB packaging. These contacts are engineered with reliable spring tension that guarantees low resistance while firmly securing the battery.

**Features:**

- Horizontal thru hole mount
- 8mm spaced Pos. & Neg.
- Tin nickel plate contacts (2 opposing leads)
- 1 cell spring steel holder
