

Panel mounted digital voltage meter DSN-DVM-568 with 3-digit red LED display, 4.5...30VDC

Panel mounted voltage meter, which can be used in industrial or home environment and if preferred even in vehicles. Just connect 2x leads to your power supply (or that particular place you want to measure or monitor) and you are all set.

Voltage meter technical details:

- Operating voltage range:
 - 4.5...30VDC
- Current consumption:
 - <20mA
- Measurement range:
 - Same as operating voltage
- Min dimensions for mounting hole:
 - 45.5x26.5mm
- Min mounting depth:
 - 22mm
- Cover frame dimensions:
 - 47.8x29x2.5mm
- Display type:
 - 3-digit 7-segment LED display with 10x15mm digit size
- Resolution:
 - 0.1V
- Display color:
 - Red
- Accuracy:
 - 1% (+/- 1 digit)
- Refresh rate:
 - ~500ms
- Connection:
 - ~150mm wire
 - If preferred, own leads can be easily soldered into PCB's solder tabs.
