LTCC Bandpass Filter

BFCV-2895+

 50Ω

2220 to 3570 MHz

The Big Deal

- Small size 3.2mm x 2.5mm
- Wide passband (2220-3570 MHz)
- Low Insertion Loss (1.8 dB typical)
- Wide stopband rejection up to 7 GHz

CASE STYLE: JV1210C

Product Overview

The BFCV-2895+ LTCC Band Pass Filter is constructed with multiple layers in order to achieve a miniature size and high repeatability of performance. Wrap-around terminations minimize variations in performance due to parasitics. These units offer low insertion loss and very good wide band rejection.

Key Features

| Feature | Advantages | | | | |
|-----------------------------|---|--|--|--|--|
| Small Size (3.20mm x2.5 mm) | Allows for high layout density of circuit boards, while minimizing the effects of parasitics. | | | | |
| Wrap around termination | Provides excellent solderability and easy visual inspection capability. | | | | |
| Wide bandwidth | Enables high data rate in communication systems. | | | | |
| LTCC construction | Provides a rugged package that is well suited for tough environments including high humidity and high temperature extremes. | | | | |

Notes
A. Performance and quality attributes and conditions not expressly stated in this specification document are intended to be excluded and do not form a part of this specification document.
B. Electrical specifications and performance data contained in this specification document are based on Mini-Circuit's applicable established test performance criteria and measurement instructions.
C. The parts covered by this specification document are subject to Mini-Circuits standard limited warranty and terms and conditions (collectively, "Standard Terms"); Purchasers of this part are entitled to the rights and benefits contained therein. For a full statement of the Standard Terms and the exclusive rights and remedies thereunder, please visit Mini-Circuits' website at www.minicircuits.com/MCLStore/terms.jsp

Bandpass Filter

 50Ω 2220 to 3570 MHz

BFCV-2895+

CASE STYLE: JV1210C

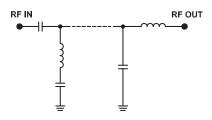

Features

- Small size
- Temperature stable
- · Hermetically sealed
- LTCC construction

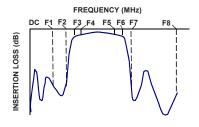

Applications

- · Software defined radio
- WLAN
- · Cellular network
- Satellite television broadcast

- 1. Measured on Mini-Circuits Characterization Test Board TB-946+
- 2. This filter is not intended for use as a DC Blocking circuit element. In Application where DC voltage is present at either input or output ports, blocking capacitors are required at the corresponding RF port.

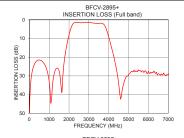

| Maximum Ratings | | | | |
|-----------------------|-----------------|--|--|--|
| Operating Temperature | -55°C to 100°C | | | |
| Storage Temperature | -55°C to 100°C | | | |
| RF Power Input* | 5 W max @ +25°C | | | |

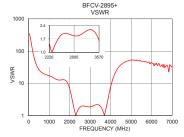

^{*}Passband rating, derate linearly to 0.25W at 100°C ambient

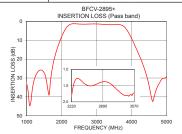

Permanent damage may occur if any of these limits are exceeded
