- Pliers size: approximately: 11.5cm or 4.5in

Product description

Those Tolsen 10030 mini combination side cutting pliers made of #55 carbon steel for longer life and reliability. The pliers have a double leaf spring mechanism that keeps the pliers open when there is no grip force to the handles. Those combination pliers are suitable for any soft wire work, beading and jewelry making.

Features:

- Made of carbon hardened and tempered steel
- Captive double leaf springs
- Each tool includes comfortable soft rubber handle grips
