

Karcy SP1848-27145 Thermoelectric Cooler Heat Sink Cooling Peltier 12V 5.8A

- Ceramics thermoelectric Cooler semiconductor module TEC1-12705
- Get ice cold in minutes or heat to boiling by simply reversing the polarity, used for numerous applications from CPU coolers to alternate power sources, or even for your own custom car drink warmer/cooler.
- These devices must be used in conjunction with a heat sink to avoid burned
- 40*40mm Thermoelectric Power Generator Peltier Module TEG High Temperature 150 degree
- Red wire to positive, black wire to the negative, it generate electricity when the temperature difference happened
