

GenCALC

GenCALC helps electricians and designers ensure they select the most appropriate cable to safely carry the required load and comply with the Wiring rules.

By specifying the load, route length, installation conditions, cable type and allowable volt drop, GenCALC gives a list of cables that comply, sorted by conductor size.

Other options can check limits on existing circuits.

GenCALC is a free software application from the System Maintenance subcategory, part of the System Utilities category. The app is currently available in English and it was last updated on 2019-11-03. The program can be installed on Android.
