

Right Angle HD 68 Female SCSI Connector

Starte right angle SCSI DB 68 female connector with latch bracket for PCB, this 90 degree HD 68 pin female SCSI connector pin arrangement in two rows, one on top of the other. The top row has 34 pins and the lower row has 34 pins. It is usually used on the Industrial equipment PCB and SCSI...

Product Details

Starte right angle SCSI DB 68 female connector with latch bracket for PCB, this 90 degree HD 68 pin female SCSI connector pin arrangement in two rows, one on top of the other. The top row has 34 pins and the lower row has 34 pins. It is usually used on the Industrial equipment PCB and SCSI devices, such as SCSI servo, SCSI PCI card and motion controller.

Product Parameters of right angle DB68 female PCB connector:

Item	90 degree SCSI-3 female connector with clip
Brand	Starte
Product type	SCSI cable and connector
No. Of Contact	68 pin
Contact Type	Female, header right-angle mount type
Options	Latch Bracket
Threaded Finishes	#2-56
Contact Finishes	Gold Selective Plating
Pin Layout	Standard
MOQ	1 PCS
Sample	Free
Package	Bags
Warranty	Two years

Technical Parameters of angled 68 pin female PCB SCSI Connector:

Connector Material

Housing	Plastic Thermoplastic Nylon PA9T UL94V-0, Black
Contacts	Copper Alloy Gold Selective Plated
Front Shell	Steel, Nickel Plated Over Copper
Bracket	Steel, Nickel Plated Over Copper
Board Lock	Copper Tin Plated Over Copper

Electrical Characteristics

Contact Current Rating	0.5 Amp
Dielectric Withstanding Voltage	150V AC
Insulation Resistance	500M Ω / Min
Contact Resistance	35m Ω /Max
Operation Temperature	-55°C~+85°C

Application of right angle SCSI-3 68 pin female connector:

- 1)SCSI motion controller, Serial PCIx card
- 2)SCSI Servers machines and Drive enclosures equipments,
- 3)RAIDs,CD ROM,File Server board
- 4)SCSI breakout Board, SCSI line tester
