Progea Movicon X2 v10.2

Movicon X is the tenth evolutional version   of Movicon, the latest
generation software for supervision, monitoring, data acquisition and
process control (Scada/HMI). Simple-to-use, high performances and
scalability are its dominant tools of success.

Movicon X is an integrated and powerful work platform, purposely
designed to make your work easier, faster and more pleasurable to do.

All the basic problems in developing automation applications have been
resolved by integrating all you will ever need into a one enviroment
only, ready and waiting at your finger tips.

The object programming technology allows you to create sophisticated
supervision and control solutions in just a few minutes with immediate
hardware device connections.

Movicon X introduces the most innovative technology into industrial
supervision systems to guarantee the highest efficiency, openness and
scalability, by renewing the whole supervision concept in "open Web
architecture".

The new version of Movicon is completely based on the XML technology,
and includes functions especially designed to bring the openness and
security standards up to factory levels, breaking down those annoying
barriers and obstacles that get in the way of distributing data
smoothly.

The technologies on which Movicon X is based guarantee the user the
use of a revolutionized product without having to compromise
architecture and performances, while guaranteeing extreme simplicity
of use and therefore making it quicker to develop at the same time.

There are many other innovative features that make Movicon X the most
modern Scada/HMI platform on the world market today.

The advantages you get when using Movicon X are:

  - Just one only development environment, from WinXP to WinCE.
  - Unmatched openness thanks to the XML structure.
  - Unmatched Networking based on the   SOAP and Web Services.

- Independence from any hardware manufacturer.
- Very userfriendly.
- Power and Performances.
- Time saving in developing applications.
- Very cost efficient - dramatic cost reductions.
- Unbeatable Services and Support.
