

Disclaimer

Static voltage or electric fields can occasionally damage small geometry bipolar ICs. Precautions should, therefore, be taken to avoid application of any voltage higher than the maximum rated voltage to this device.

Synergy Semiconductor Corporation does not assume responsibility for any use of the products described herein and reserves the right to make changes to data sheet specification or product, or discontinue a product, at any time. No representations are made that the products or circuitry described herein are free from patent infringement or other rights of third parties. No other patent rights are implied.
