

P6060 60MHz Oscilloscope Scope Analyzer Clip Probe Test Leads Kit

Oscilloscope Probes P6060 (pair)

If you want a pair of replacement oscilloscope probes then these are for you. These are the same probes supplied with OWON Oscilloscopes. Very good quality and a bargain price.

- BNC connector
- Probe attenuation: 1:1 & 10:1
- Probe bandwidth: 60MHz at 10:1 attenuation / 6MHz at 1:1 attenuation (actual tested up to 25MHz)
- Rise time: no more than 5.6ns at 10:1 attenuation
- Input voltage up to 600V
- Safety standards: CAT II 1000V / CAT III 600V
- Input resistance: 10M ohm
- Input capacitance: 10 x (18.5-22.5P) / 1 x 120P
- Compensation range: 8~35P
- Cable length: 120cm
- Relative humidity: 85% max
- Package includes:
 - 2 x Oscilloscope Probes
 - 4 x Color rings
 - 2 x Caps
 - 1 x Regulating rod
