

# GBG1WWJY33W

High Power Led Chip 1W White (6000K-6500K / 300mA-350mA / DC 3V-3.2V / 1 Watt)  
Super Bright Intensity SMD COB Light Emitter Components Diode 1 W Bulb Lamp  
Beads DIY Lighting

- 1Watt / White / 6000 K-6500 K / 100LM-110LM / 30mil chips / 120-140 degree Emitting Angle
- Input(DC): 300mA-350mA / 3V-3.2V (Best Match with "Chanzon 300mA Constant Current LED Driver")
- Integrated Chanzon High Quality,High Brightness Chip on Board / Double Golden Wire / Copper Frame)
- 50000 Hours Life Span (Working Temperature should be less than 60? (140?) with a Heat Sink System)
- Total Shipping Weight: 0.46oz / 0.013kg (Pack of 10)

**Specification:**

Quantity: 10 pieces / Pack

Brand: Chanzon

Power: 1 Watt (Max)

Emitting Color: White (6000K-6500K)

Recommended Current: 300mA

Forward Voltage: 3.0-3.2V

Luminous Flux: 100-110LM

Emitting Angle: 120-140 degree

With Double Golden Wire (99.99%) and Copper Frame
