

Cewaal Ribbon Flat Cable, 15cm CSI Flat Ribbon FFC Cable Line Wire For the Raspberry Pi Camera

-
- These cables are designed to connect your Raspberry Pi to the Raspberry Pi camera (via the CSI interface).
- They can be used as direct replacements for the existing Raspberry Pi Camera cable if you have damaged yours or simply want a cable that is longer or shorter than the standard 15cm.
- These are un-shielded cables, of the same style as the original Raspberry Pi camera cable.
- The cable usually consists of a flat and flexible plastic film base, with multiple metallic conductors bonded to one surface.
- Also applicable for LCD, LCD TV, car navigation, car audio, laptop, PC, DVD player, recorder, printer, copy machine, etc.
