

CP 2501 Printer USB A Male To B Male 1.8m

Product: #CP 2501

Product Description

Daiyo DIGIT connectors and cables series are carefully designed and machined from solid brass and plated with 24K gold for preventing signal deterioration; provide maximum contact areas which maintain uncompromisingly signal transfer. Incorporating non-magnetic materials that prevent magnetically generated interference. The result of signal transmission is enhanced to maximise the performance of computer data transferring and tele-communicating.
