

## laser power ignition coil HS-05-160BY1W crooked core

- **OVERVIEW**

---

Product Features: The company's products have an output current, starter speed, stable performance, easy installation, affordable, and other advantages, specific models are:JG-1500,HS-01-173,HS-02-213,JG-05-120(XX),JG-05-160(XX),JG-05-200(XX)..., use:CO2Laser power supply;

Technical Parameters:

Input voltage:DC150-300V

Output high-pressure:DC15000-25000V

Output current:0-30MA

size:4.5\*4.9\*7cm

weight:450g

At the same time can be customized according to customer requirements, customers are welcome to inquire or online inquiry.
