

# LED K YELLOW

2X5X7 square LED 257 Yellow light-emitting diode

## Product Description

Emitting diode LED lamp beads

Operating Current: 20 (mA)

Operating voltage: 1.9-2.1 (V)

Power: 0.06 (W)

Dimensions: 2X5X7 (mm)

Model: 2X5X7 Square

Thermal resistance:  $\leq 5$  ( $^{\circ}$  / W)

CRI: 70-80

Beam angle: 120 ( $^{\circ}$ )

Luminous efficiency: 90 (lm / W)

Substrate material: iron

Wavelength: 590-592

Luminous intensity: 500mcd-700mcd

Packing: 1000pcs / bag

The scope of application: special lighting, traffic lights, indoor lighting, industrial lighting, backlight, advertisement label, etc.
