

RG59/RG6 Coaxial BNC Male Connector for CCTV Camera

Description :

- 50 / 75 ohm impedance enhances performance
- Pure Copper & Gold plated Center Pin provide exceptional conductivity
- Fully enclosed outer metal conductor and center pin cavity geometry maintains constant impedance
- High flex-life coupling spring applies constant pressure after many cycles
- Outer contact nickel plating for a bright, long-lasting, non-tarnishing finish
- Simply & Professional appearance for Coaxial cabling
- Easier for camera installation, save time and more securer cable connection
- High quality termination
- No electrical tap, No splicing, no crimping, but only a small screw driver
- Material: Metal - Brass / Zinc Alloy
- Plating: Gold / Nickel plated
